

SUMMER TASKS FOR A LEVEL DRAMA AND THEATRE STUDIES

Watch a piece of live theatre in any style over the Summer holiday.

(this can include NTLive at the cinema, Digital Theatre Streaming online, a live production on a channel such as Sky Arts or a visit to a theatre production locally or nationally.)

Write a 750 word review analysing its strengths and weaknesses:

- Please state in your introduction: what you saw, where you saw it, what style it is in and the name of the director.
- Discuss 1 or 2 particular actors who stood out for their performance and explain why.
- Try and describe a particular scene in detail and say why you thought it successful in achieving what you think the performance has set out to achieve (*e.g. make you laugh, make you cry, entertain you, build suspense*)
- Discuss any contributing factors that you think make the theatre piece a success or failure.
